

Ruby on Rails 5.x

Do início ao fim!

The background features a light gray map of the Capistrano region, showing its coastline and internal boundaries. Overlaid on this map are several large, semi-transparent geometric shapes in shades of gray and white, including triangles and polygons, which create a modern, abstract design.

Configurando o Capistrano

Configurando o Capistrano

- Gems

`https://github.com/capistrano/capistrano`

`https://github.com/capistrano/rvm`

`https://github.com/capistrano/bundler`

`https://github.com/capistrano/rails`

Configurando o Capistrano

- Gems

```
group :development do
  gem 'capistrano', '~> 3.11', require: false
  gem 'capistrano-rvm
  gem 'capistrano-bundler', '~> 1.5'
  gem 'capistrano-rails', '~> 1.4', require: false
end
```

Configurando o Capistrano

- Gems

```
group :production do  
  gem 'mysql2' # , '~> 0.3.18'  
end
```

```
bundle install  
cap -v
```

Configurando o Capistrano

- Gere os arquivos de configuração

```
cap install
```

```
Capfile  
config/deploy.rb  
config/deploy/production.rb config/deploy/staging.rb  
lib/capistrano/tasks # directory
```

```
cap -T # para conhecer os comandos do capistrano
```

Configurando o Capistrano

- Capfile

```
require 'capistrano/rvm'  
require 'capistrano/bundler'  
require 'capistrano/rails'
```

Configurando o Capistrano

- Configuração Global (**config/deploy.rb**)

`https://gist.github.com/jacksonpires/950c884b73a77b5531b6ba6b844c7172`

Configurando o Capistrano

- Faça a configuração do ambiente (**config/deploy/production.rb**)

```
role :app, %w{deploy@<IP>}  
role :web, %w{deploy@<IP>}  
role :db,  %w{deploy@<IP>}
```

Configurando o Capistrano

- Faça um commit com as alterações

```
git add .  
git commit -m "Configurando o Capistrano"  
git push origin master
```

Configurando o Capistrano

- Faça o primeiro deploy

```
cap production deploy
```

```
cap production deploy:check
```
