```

Unicornhttps://bogomips.org/unicorn/

Unicorn gem https://github.com/defunkt/unicorn

Unicorn + Capistrano

```
group : production do
  gem "unicorn"
end
group : development do
  gem "capistrano3-unicorn"
end
bundle install
bundle exec cap -T
```

Capifile

require 'capistrano3/unicorn'

Fluxos do Capistrano

http://capistranorb.com/documentation/getting-start ed/flow/

Altere o... config/deploy.rb

```
after 'deploy:publishing', 'deploy:restart'

namespace :deploy do
   task :restart do
    invoke 'unicorn:stop'
   invoke 'unicorn:start'
   end
end
```

• Altere o... config/unicorn/production.rb

https://gist.github.com/jacksonpires/6f3de4886e64bb3ef520 2b330d304947

Faça um novo deploy...

```
git add .
git commit -m "Configurando o Unicorn."
git push origin master
cap production deploy
```

Comandos úteis

```
systemctl restart nginx
```

```
cap production unicorn:stop
cap production unicorn:start
```
