Ruby on Rails 5.x

Do início ao fim!

Configurando o Redis no Rails

Configurando o Redis no Rails

- **Configurando**
  - https://guides.rubyonrails.org/caching_with_rails.html #activesupport-cache-rediscachestore

    ```
    gem 'redis'
    gem 'hiredis'
    ```

    ```
    #config/environments/development.rb
    config.cache_store = :redis_cache_store
    ```

Configurando o Redis no Rails

- **Gem**
  - https://github.com/redis/redis-rb
  - https://github.com/redis/hiredis

Configurando o Redis no Rails

- **Rails.cache**
  - https://guides.rubyonrails.org/caching_with_rails.html #cache-stores

Configurando o Redis no Rails

- **Rails.cache.write / read**
  - `https://api.rubyonrails.org/classes/ActiveSupport/Cache/Store.html`

Configurando o Redis no Rails

- **GET <key>**
  - `https://redis.io/commands/get`
- **KEYS '*'**
  - `https://redis.io/commands/keys`
  - **`# Equivalente no Rails`**
    - `Rails.cache.redis.keys`
- **DEL <key>**
  - `https://redis.io/commands/del`
  - **`# Equivalente no Rails`**
    - `Rails.cache.delete <key>`

Configurando o Redis no Rails

- **FLUSHALL (apaga tudo)**
  - `redis-cli FLUSHALL`
  - **`# Equivalente no Rails`**
    - `Rails.cache.clear`
